Welcome to our AW24 gift range, which contains almost too much newness to list across its two gift stories and our growing home range. We have a new printed jewellery box, have updated our cosmetic bag offering with a diagonal zip make-up bag, make up organiser and beauty bag, and made our best-selling washbag even better with added carry handle. We've re-designed the card holder, coffee cup and borg hot water bottle and added printed packing cubes to our travel offering. In home, we've added a pair of boxed egg cups, a pair of boxed hand blown glasses, butter dish, shallow bowl, new candlesticks and two hand blown glass pots with lids. Phew, we've been busy!

As if drawn with light, our mono bloom print, in the transitional gift story, has been reversed out in its latest iteration, securing its place in our brand DNA. At the heart of the Bold Femininity capsule, this print is complimented by our Trompe-l'oeil stripe-come-check, and scattered spot in a sweet and sour palette. This story celebrates those who boldly express themselves through their style, not by conforming to societal expectations or limitations, but embodying confidence and strength.

From its glamorous origins in 1940s Hollywood, to 1990s girl power, leopard print has long been associated with a sense of confidence and individuality. No longer just a trend to come in and out of fashion, leopard print has become an effortless style staple. In our winter Showstopper story, it's paired with relaxed metallics and our heritage heart, in a warm but playful palette. Candy pink happily clashes with Pantone's colour of the season, red-orange; a colour synonymous with energy and empowerment, with both complimented by cool olive and duck egg.

Here's to a fantastic season ahead!

Caroline
